KVOO RADIO

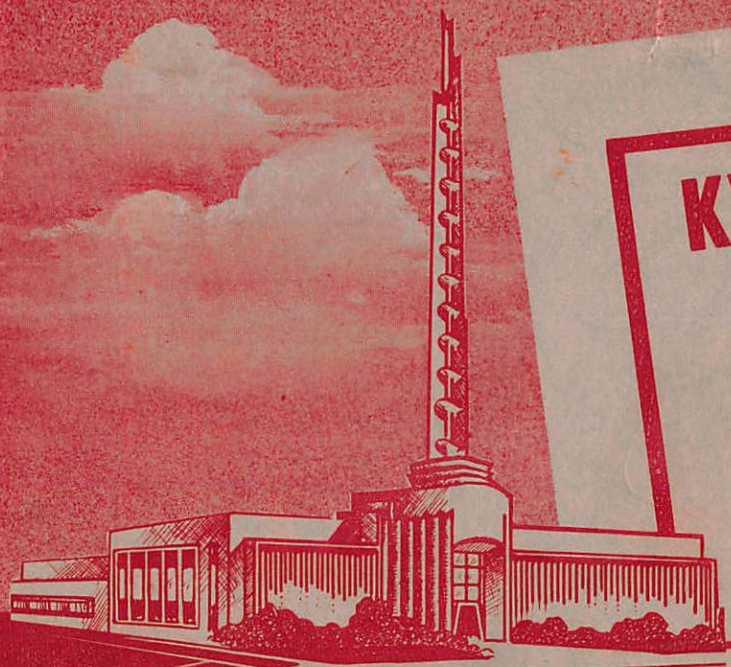

TULSA

50,000 watts 1170 kc

NBC AFFILIATE

on the air
24 hours each day

THE VOICE OF OKLAHOMA
SINCE 1925

Thank you for your interest in our operation.

We are pleased to verify your report of reception on 6-28-66 at 1030 AM CST. The picture, on the front, shows our studio building. Our transmitter plant, 11 miles east of Tulsa, includes the main 50 kw and 5 kw auxiliary transmitter with three 0.56 wave length vertical towers producing a cardioid directional antenna pattern radiating nearly 100 kw to the southwest at night.

Please pay us a visit when you are in Tulsa
