Mr. Steve Sprague  
Coffeeville KS

Steve:

regret having taken so long to answer —  
we've undergone extensive remodeling and your  
report was lost in the shuffle.

KIKM is 1000watts directional, with all of our  
signal beamed south, making your hearing  
us a very rare event, indeed!

congratulations, and good luck in the future.

Regards,

Ken Wilson C.E.
