Mr. Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha, Nebraska 68107

Dear Mr. Wesolowski:

Thank you for your reception report of May 11, 1973. No, I did not get a phone report on your call to the station.

WKRG is on 710 KC, 1 Kilowatt. The antenna you heard is a 346 foot quarter wave free standing tower located in a swampy area. WKRG is directional to the south at night but every 2nd and 4th Friday 12:30 to 12:35 A.M. we transmit a dial tone, non directional, for the purpose of frequency measurement. (+1 cycle on May 11) The measuring service is located at Birmingham, Alabama and the dial tone is used for identification at Birmingham. WKRG is a 24 hour a day station, silent on Sunday nights for maintainance. I'd think it very unlikely that you'd pick us up while we're directional. Our pattern protects WOR, in New York.

Again, many thanks for your report.

Sincerely,

Curtis B. Willard
Curtis B. Willard
Chief Engineer

The radio transmitter phone number is Area Code 205-432-8188.
Television Master Control is 432-5502.
