

WLIQ **1360**
5000 Watts

July 12, 1971

Mr. Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha, Nebraska 68107

Dear Mr. Wesolowski:

This is to verify your reception report dated February 8, 1963 from 1:31 to 1:34am. WLIQ still operates on 1360 KHz and operates with 5000 watts. Our towers are located on the East side of Mobile Bay, just on the other side of the city tunnel. Our pattern is toward New Orleans.

Sorry for the long delay in answering your report.

Sincerely;

Robert Savell

Mr. Robert Savell, C.E.
