

ONE OF THE *Jack Beasley* STATIONS

Lewis Ave. - 442-9859 - Box 1121 - Fayetteville, Arkansas 72701

December 13, 1973

Mr. Ernest J. Wesolowski  
1416 Pasadena Avenue  
Omaha, Nebraska 68107

Dear Mr. Wesolowski:

On answering your QSL, we were on testing coverage with power of 900 watts until last 10 minutes, then reduced power to 450 watts.

The station is unidirectional with a 225 foot tower, with FM 92.1 KKEG antenna side mounted. KKEG is 3,000 watts effective rock station. KFAY is country day times. KKEG is 24 hours.

Thanks,

*N. D. McChristian*
