

# KMYO

ONE O FIVE O

VICTOR BUILDING ■ 4015 W. CAPITOL  
LITTLE ROCK, ARKANSAS ■ MO 6-2821

11/29/71

In reply to your report of reception on 11/3/71  
 sorry to be so late but have been pretty busy. our AM + FM  
 audio from the studio travels through 6 miles of telephone  
 cable to our transmitter bldg. in north Little Rock.

our transmitter is a Gates vanguard II all transistor  
 (except for the final power amplifier tube). Antenna is a  
 400' Guyed Steel tower with a Gates FMA-6B 6 Bay FM  
 antenna side mounted near the top on the south face.

our FM Ammitter is a Gates FMS-56 5,000. watt Stereo  
 with 500' of 3" transmission line to the FM antenna. our FM  
 Effective Radiated Power is 26,000. watts Horizontal only.  
 I am enclosing an AM Coverage map we have no FM  
 coverage map.

Robert D. Davis

Ch. Engineer KMYO to AM + FM  
 P.O. Box 2459 Little Rock, Ark.

72203

P.S. I think Bland Perry is  
 the Eng. at K2AA.
