Omaha, Nebraska 68107

Dear Mr. Wesolowski:

We did conduct a frequency check on Wednesday, June 28, 1972. We were on the air from 12:29:30 to 12:50:20 A.M. Mountain Daylight Time.

In reply to your question concerning our time zone: Our station is located in New Mexico, but we are licensed from Window Rock, Arizona. Since the Navajo Reservation observes daylight savings time, we also observe it.

The following is taken from our program log for Wednesday, June 28, 1972:

On the air: 12:29:30  
12:30:10 ID including freq., power, etc.  
12:36 ID  
12:41 ID  
12:45 ID  
12:50 ID  
Off the air: 12:50:20

A 1000 cycle test tone was broadcast inbetween station identifications. There was no recorded music broadcast as indicated on your report.

If I can be of further help, please let me know.

Sincerely,

Mr. Raymond Dommer  
Chief Engineer, KHAC
