PHOENIX, ARIZONA 85033 • PHONE 247-5789

Dear Mr. Wesolowski:

I am very pleased to know that we have the signal to reach Omaha, even if it is once every fifteen years. People less than twenty miles complain about our signal at night. You did by the way, no doubt received us, we just went to the all news format last week, and that is what you heard.

I thought perhaps you might want to know that we are 5000 watts non-directional daytime, and 500 watts directional night with the main lobe 62 degrees.

Thank you very much for your letter, and I hope I hear from you again.

Sincerely:

A handwritten signature in black ink, appearing to read "M. Walker". The signature is written in a cursive style with a long horizontal flourish extending to the right.

MARTIN L. WALKER, Chief Engineer
"ALL NEWS K R U X"
