Omaha, Nebraska 68107

Dear Ernie,

Many thanks for your reception report of KXIV Radio. As a former NRC member, I was interested in seeing your name, and recognized it from the pages of "DX News".

Your report was correct, and at the time you heard us, we were doing a frequency check for the measuring service in Tucson.

This letter will serve to verify your reception of KXIV-AM, at \*\*\* 1,400 kHz from 0051 to 0100 MST. At the time you heard us, we were at a power of a thousand watts. As I mentioned, your report was correct.

Thanks again for the report Ernie. It's nice to know that we get out that well from time to time. 73.

Sincerely,

A handwritten signature in cursive script that reads 'Cliff Reno'.

Cliff Reno WB7DKS  
Engineer  
KXIV Radio

\*\*\* Leave it to the great typist here. Left off the day that you heard us. I'm verifying your reception of November 7, 1977 0051 to 0100 MST. Sorry about that, hi.
