Capital Cities Station

April 12, 1974

Mr. Ernest J. Wesolowski  
1416 Pasadena Ave.,  
Omaha, Nebraska 68107

Dear Mr. Wesolowski:

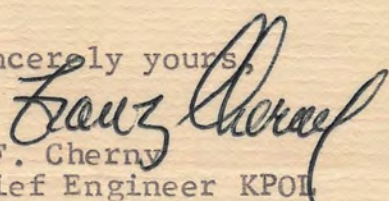

Thank you for your reception report on KPOL and your letter. This will confirm your reception of KPOL on April 7, 1974 between approximately 11:47 PM and midnight PDT.

I was particularly pleased to hear from you and to receive the brochure on KOIL. At one time I was employed by KOIL as transmitter supervisor, and also worked for KFAB, KMTV, and KMA in your area. I lived not too far from you in Omaha, at 2414 South 48th St.

It is quite surprising that you received KPOL and KBUY in Omaha since both protect station KXEL in Waterloo, Iowa and although we operate with 10 KW nights, our signal in the direction of Omaha is very low, while you are practically in the major lobe of the radiation from KXEL.

Thank you again for writing.

Sincerely yours,

  
F.F. Cherny  
Chief Engineer KPOL
