December 13, 1975

Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha, Nebraska 68107

Dear Ernest,

this is a letter verification on reception of Radio 14,
on November 24, 1975.

when you joined us, I was broadcasting tones for the
benefit of someone in Los Angeles, California, who were
hoping that the 1 Kw rig was being tested. We did
resume with music and than more tones until about
12:59.

you mentioned in your letter that you had visited the
studios of KKEP about three years ago. I certainly
wish to extend an invitation to make a return visit and
see our new facility.

KSIR, was purchased by Estes Park Broadcasting Company,
Inc., in April of 1974, and the difference can only be
described as night and day.

I hope to advise your club when we get the approval for
an increase in power, and will be testing for a proof
of performance in the near future, or maybe as late
as Febuary.

I really can't remember who called me the night of the
test, but if you were one of the people, well thanx, and
I certainly appreciate being a part of your hobby.

Respectfully,

Bob Suarez,
Chief Engineer
