

KTLN

...radio denver

1160 EAST COLFAX
TELEPHONE ACOMA 2-4811
DENVER 18, COLORADO
July 5, 1962

Mr. Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha 7, Nebraska

Dear Ernie:

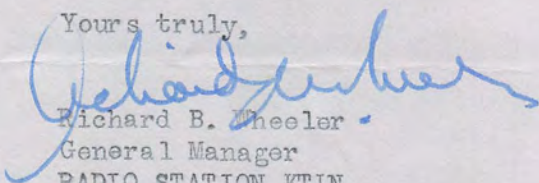

This letter is to verify that you were listening to KTLN in Denver on the morning of Thursday, February 2, 1961, from 1:40 to 2:01 AM, CST. Your report is quite complete & therefore we are happy to send you this letter of verification. We are always happy to hear from National Radio Club members around the country.

We are sorry for the long delay in answering your kind letter. We found a large number of reception reports in a desk drawer which apparently were never answered by our former Chief Engineer during 1961-1960 & we are now verifying all these reports. We also had a report from a John Draus of Omaha who you no doubt are acquainted with.

KTLN operates on 1280 Kilocycles with a power of 5000 watts fulltime using 3 towers in a directional pattern. Our studios are located in the Heart-O-Denver Motel near the downtown area & our transmitter is located South of Englewood, Colorado. At present we operate daily until 1:00 AM, MST, except for Sunday nights.

In closing, we want to wish you continued success in your interesting hobby & we will be happy to hear from you anytime you happen to tune in KTLN there in Omaha.

Yours truly,

Richard B. Wheeler
General Manager
RADIO STATION KTLN
