Dear Mr. Wesolowski,

We were very pleased to hear from you. Glad that you were able to pick-up KVFC the night of Dec 13th when we were checking FQ on our Aux Xmitter..The report indicated that/^{we}were 7 cycles high..The Xmitter is a Gates. Our Main 1,000 watt Xmitter is a Collins 20V-2....Your report is exactly right as written in your letter. For your information the weather here on that night was clear and about 21 degree's....Once again, Glad to hear from you.

Radioly Yours,
Jim Hawkins
