

Radio Station WAYR  
Orange Park, Florida  
April 26, 1962

Dear Listener,

I received your reception report of February 5, 1962 and am happy to confirm a correct report. Thank you for being interested enough to take time to send your report.

Verification of your report may not be as prompt as I would like it to be; however, I do try to verify each report.

Our transmitter is a Collins 20V-2, 1000 watts. The antenna is a 319 feet base-insulated guyed tower operated non-directional.

I am enclosing a brochure which tells some of the history of this station. Of course, some of the details and personnel is now changed, however, you will gain a blessing through knowing the story of how God supplied this station.

If I can be of any further assistance, please do not hesitate to contact me. I invite you to stop and visit with us any time you may be our way.

Sincerely,

Cecil E. Underwood, Jr.  
Engineer

P.S. I will send a coverage map as soon as I get some of them printed.
