I'm sorry but we don't have a map printed of our coverage, just one here for our own use, guess we have never thought of printing any, our studios are South of Cap Haitien 5 miles and transmitters just across the bay of Cap Haitien but just now we don't have our studios linked with the transmitters so just have a small studio there but hope someday to link them. we have 6000 watts on 1035 now and hope within a few weeks to add more to make it 10,000.

We gratefully confirm your report of reception of

STATION 4VEF on 1035 -----mcs/kcs

with 6000 -----watts power.
