Dear Sir:

Pleased to verify your reception of this station as per your letter of June 21, 1973. The time of your reception 5:59:30 - 6:05 AM on June 21.

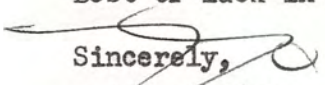

Pre-sunrise power of 500 watts was in effect.

You did a very good job of getting the signal and of understanding the transmission. I am quite surprised.

A coverage map and datasheet on the station is enclosed.

Best of luck in your future DXing!

Sincerely,

Paul Reehling
Manager
