December 24, 1966

Dear Ernest,

This is to confirm that WJJC 1270 was on the air testing
A.M. EST
Monday morning from 3:00 to 3:31, /December 19th.

I was very pleased with the forty replies I have received from 19 states: North Carolina, Kentucky, Kansas, New Jersey, Pennsylvania, Maryland, Virginia, Ohio, Missouri, New York, Illinois, Nebraska, Indiana, Connecticut, Iowa, Rhode Island, Massachusetts, Texas, and Georgia from persons who heard WJJC.

Reception ranged from poor to very good at times with everyone noting interference from KPJZ Fort Worth and a Cuban station off frequency.

We will soon be moving to new studios and more testing will be done as equipment installation progresses.

I hope we will meet again soon on 1270. Until then, good luck from a radio brother in the deep south.

Sincerely,

William G. Carson

William G. Carson, C. E.
