Dear Mr. Wesolowski:

Please accept my apologies for the delay in replying to your letter of March 8. I am delighted to hear that you received our signal on that date. The reception that you received is exactly as our log states. I do appreciate you taking your time to write us.

We have been on the air now for three weeks and it has been rather hectic, since we have a four tower array and we are trying desperately to keep our phase in its proper perspective.

Thank you again for taking your time to write us.

Sincerely yours,

Bernard S. Morris, Vice President and Chief Engineer
