Mr. Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha, Nebr. 68107

Dear Sir:

This is to acknowledge your reception report #67-54 on our frequency test early the morning of March 14, 1967.

We thank you for same - it is most gratifying to know that we are getting out since our antennae system is almost groundless due to the drouth conditions.

You might be interested in knowing that our January frequency check was heard in New Zealand - some output for a half-kilowatter.

Thanks again for your report and lots of lucks with your DXing.

Sincerely,

Bill Zollman
