

KKSI

AM RADIO 1130

Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha, Nebraska 68107

Dear Mr. Wesolowski:

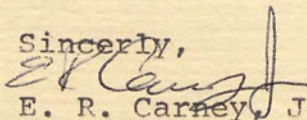

This letter is to confirm your reception of Radio Station KKSI on the morning of February 10, 1975, between the hours of 2:11 Am to 2:21 Am Central Standard Time.

We appreciate your report and find that your log is an accurate indication of test broadcast for February 10, 1975.

KKSI Radio operates non-directional with a day time power of 250 watts, on the American class I B frequency of 1130 khz. The dominate I B stations on 1130 khz are KWKH in Shreveport, La. and Wnew New York City. Other stations operating night time on our frequency are located in Minneapolis, Milwalkee, Detroit, San Diego and Dinuba, Calif. and Moultrie, Ga. Under these conditions, it is interesting to note your report.

Thanks again for your letter.

Sincerely,

E. R. Carney, Jr.
Persident/
General Manager
