April 25, 1963

Mr. Ernest J. Wesolowski  
1416 Pasadena Avenue  
Omaha 7, Nebraska - USA

Dear Sir:

We are very pleased to verify your report of reception of our signal from 6:24 PM to 6:45:30 PM Central Standard Time on April 23, 1963 on 1090 Kcs.

Your report was correct in almost every detail, the exception being only the spelling of the name of the church referred to in the announcement given at 6:42:30.

Our transmitter is a Raytheon RA-1000 (New in about 1947) operating at 1000 watts utilizing 833's as both modulators and RF finals. It is old, but very stable. Our transmitter and studios are located just off U.S. Highway 218 about 4 miles Southeast of Waterloo, Iowa.

We do not have a coverage map to send you, but suffice it to say that our primary area is about a 100 mile radius...more or less depending on terrain, ground conductivity, etc.

I hope this letter contains the information you desired. Enclosed, you will find some information concerning our organization.

Respectfully,

*Don Malley*
