August 16, 1972

Mr. Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha, Nebraska 68107

Dear Mr. Wesolowski:

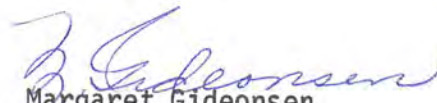

This letter will serve to verify your reception of KROS on Monday, August 14, 1972 from the time period of 12:01 to 12:05 AM Central Daylight time. The items and announcements as you have them listed are correct.

Our frequency measurement checks are made twice yearly (March or April) and (September or October) by our own equipment at any hour of the operating day.

I am not able to answer your questions concerning KCLN's testing as I do not know.

Thanks for your interest in KROS.

Sincerely,

Margaret Gideonsen
Executive Secretary
