CRESTON, IOWA

January 28, 1961

Mr. Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha 7, Nebr.

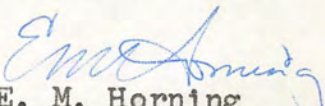

Dear Mr. Wesolowski:

This will verify that your logging of KSIB from 11:50 a.m. to 12:00 Noon on Friday, January 27, was correct.

Our studio and transmitter is located on highway 34, one half mile southwest of Creston. We have a Wincharger tower 228 feet high and this summer installed a new Gates one kilowatt transmitter.

We are enclosing a coverage map for your information.

Very truly yours,

E. M. Horning
General Manager KSIB
