DR. WENDELL HANSEN
President

Dec. 10, 1979

Dear Ernest,

Station WESL is pleased to receive your reception report made 2:10 to 2:17 AM Standard time (Central) on Mon. Dec. 3, 1979 and to send this letter of verification. Our antenna is omnidirectional and the power at night is 250 watts so this is quite a DX er find. Thank you again for your report.

Cordially,

A handwritten signature in blue ink that reads "John Fischer". The signature is written in a cursive style with a prominent initial "J".

John Fischer
Technical Director

P.S. I work at another station in St. Louis, MO. call letters KFJQ and it seems to me if I recall correctly that you have received KFJQ some years back in Omaha.
