Dear Mr. Wesolowski,

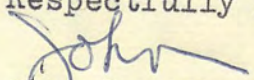

I was pleased to get your letter of the 15 of November stating the reception of our AM station WILY on the evening of November 15, 1975.

The information sated on you letter proved to be correct and times were also found to be correct to the best of our ability.

The last time you stated that you recieved our station was back when we were owned by a different company. Since then our station has changed it's format to and automated system and discontinued the simulcasting on our FM side also. We have since gone stereo and are currently playing Country music. The new call letters are WRXX. "Rex" operates at 95.3 with 3kW.

We appreciate your reception of WILY and thank you for your letter.

Respectfully yours,

John Laughhunn
