This is the first time since April 3, 1961 that I heard WJBM Radio. Last time was your monthly Frequency Measurement Check at 12:15am. I did not send you a report of reception at that time so I am requesting one from you at this time. Readability was 100% the first 4 minutes and about 75% from then on.

Receiver: Hammarlund, HQ-180-A 18 tubes. Signal strength: S-7 to S-9  
Antenna: Directional 40" square Loop, pointed toward: St. Louis,  
Interference: Station Unknown Rock Station. Was not KIMS in Lincoln, Nebraska.  
Atmospheric noise: None Fading: Moderate Readability: 100% to 75%  
Omaha temperature: 28 degrees. Weather: Cloudy

I shall be pleased to hear from you in reply to the above report, and to receive a letter of verification, stating the date & time of my reception, for which RETURN POSTAGE is enclosed. Do you also have an extra COVERAGE MAP available? Sincerely thanking you, I am.
