Mr. Wesolowski;

This will verify your reception of WRHL, Rochelle, Illinois, 6:28 to 6:32 AM CDT on Saturday, September 30, 1972. WRHL operates with a directional antenna at 250 watts, 120 watts presunrise. On September 30, the changeover from 120 to 250 watts was 6:30 AM.

Our directional pattern's major lobe is slightly south of due west.

Ronald Pesha
Chief Engineer, WRHL
