

Aug 9, 1960

To: Mr. Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha 7, Nebraska

This will confirm your report of reception of our
AM station on July 11, 1960.

For your files, WTAD-AM operates on a frequency of
930 kc with 5 kilowatts daytime and 1 kilowatt DA
at night.

WTAD-FM transmits from a tower that is 631 feet
above ground on 99.5 mg with 27 kilowatts ERP.

KHQA-TV transmits on Channel 7 with maximum power
of 316,000 watts on a tower that is 804 feet above
ground.

Both our radio and television stations are affiliated
with the CBS Network and KHQA-TV also transmits programs
from the ABC Television Network.

Thank you for your interest.

Sincerely,

Dick Moore
