Mr. Wesolowski,

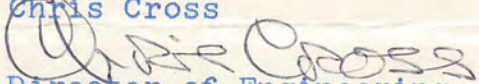

Thank-you very much for your reception report dated August 28, 1972. My appologies for the delay in verifying.

Please consider this letter as verification of the program material you listed as being heard. It is a pleasure receiving reports as fine as yours.

It came as a bit of a surprise having a copy from the West. We generally dont get out too far in that direction, even being non-directional. We cover the eastern seaboard quite regularly and with S-7 to S-9 readings or better. Of course I am not complaining.

Thank you again for the fine report. I am sorry I cannot send a QSL card at this time. Another excuse from the printer. Good listening and 73's.

Tell the KOIL "good guys" that American top 40 didn't make it on our AM (WJVA) in this young market. Progressive rock has swept the campus at Notre Dame (watch the language) and Saint Marys.
