Ernest J. Wesolowski  
1416 Pasadena Av.  
Omaha, NE 68107

Dear Ernest,

Right up front I want to apologize for taking so long to get back to you on your reception report of January 29. We have been in the middle of rebuilding our AM array and rebuilding all of the Air Studios all at the same time. During that time we've also had a format change. As of July 25, we are WQHK - "The Hawk!"

As you know we are a 5KW fulltimer with separate Day and Night patterns. We beam north & south during the day and almost directly north at night. We protect quite a few stations including KWK which you said interfered with us the night of your reception.

We run a 5KW RCA BTA-5L Ampliphase Transmitter with a 4 tower inline array at night. We have a 3 tower dogleg array for daytime.

Once again thanks for your report, and I apologize for not getting back to you sooner. Good Luck in your radio hobby.

Sincerely,

A handwritten signature in blue ink that reads "Randy".

Randy Henderson  
Asst. Engineer
