

WTTT 1370 k.c. 5000 watts day - 500 watts night

WTTV-FM 92.3 meg. 37.2 kilowatts

535 south walnut • bloomington, indiana • edison 2-3366

Dear SWL:

Many thanks for your report of 10-29-62. Our Log checks with your reception here. WTTT/AM operates 5KW days on a phased pattern, and 500^W nights semi-directional. WTTV/FM operates with an ERF of 37.2KW on 92.3MC, with transmitter and tower located at Trafalgar, Indiana. Antenna height is 1090 feet above average terrain. The studios for both stations are in Bloomington, Indiana.
