Dear Ernie,

This will verify your reception of the old Radio Station K B L R which is now K L O E, both on 730 Khz and in Goodland, Kansas. Date of your logging K B L R was November 11, 1959. Your tape recording brings back many memories of years ago. You are the first person I know of who does such air checks of station id's.

K B L R operated on 730 Khz with 1000 watts of power and was a daytime station. Someday I hope to verify your receiving of K A Y S on 1400 Khz. here in Hays. We sign-off the air at 5 minutes past midnight but do not do very much testing after midnight.

Good luck with your DXing.

Sincerely,

Engineer in charge,

K A Y S in Hays, Kans.
