April 9, 1979

Ernest J. Wesolowski
1416 Pasedena Avenue
Omaha, Nebraska 68107

Dear Ernest:

This letter is to confirm that you received KEYN on April 2, 1979 from 12:31 AM to 1:02 AM, CST, on 1410 kHz. This is quite unusual as we were operating normally with night-power and pattern. Thank you for the signal report. I am enclosing a coverage map, but the night-time pattern is not included on it.

Sincerely, ~

Orin Friesen
