Salina, Kansas 67402

April 30, 1964

Dear Ernest,

Many thanks to you for your letter concerning the receiving of Radio Station KLSI. KLSI operates on 500 watts daytime, and is directional, with five towers in a line, from NW to SE. The KLSI Transmitter is located about 6 miles SE of Salina.

KLSI operates on an assigned carrier frequency of 910 kilocycles as authorized by the Federal Communications Commission. We began broadcasting on April 20, 1964.

I would like to extend a cordial welcome for you to visit our studios anytime you are in Salina.

Once again, thank you very much for your time in listening, and sending us your reception report which was correct.

Very truly yours

Jack Frank - K4M22

Chief Engineer
KLSI Radio

P.S. We go on the air at 6:00 AM — our .1 covers beyond Omaha, how far I'm not sure. — our .5 covers Franklin & Hebron area in Nebraska. Jack
