Dear Mr. Wesolowski:

A Check with our program logs verifies your reception of KMAN on 1350 kcs on Sunday, April 5, 1964 from 6:58 PM to 7:00 $\frac{1}{2}$ PM Central Standard Time.

In reply to your question as to our transmitter location, I am marking this on a map of the Manhattan-Tuttle Creek Area. I am also enclosing a coverage map as requested.

May I take this opportunity to thank you for your report. Reports of this nature are interesting to us too.

Sincerely yours,

William G. Ball
Chief Engineer
