

SOUTHEASTERN BROADCASTING CO., Inc. • BOX 740 • SOMERSET, KENTUCKY

May 31, 1963

Mr. Ernest J. Wesolowski,
1416 Pasadena Ave.,
Omaha 7, Nebraska

Dear Ernest:

Thank you so much for the nice report on our signals on the morning of March 15, 1963. The information contained in your letter checks with our logs of that date from 2:11 am to 2:25 am, EST.

As you may have gathered from the signals that morning we were conducting our regular monthly frequency measurements with a concern in Kansas City, Missouri.

Sorry, we do not have an up-to-date coverage map available at this time, but will have in a few weeks. Our transmitter and studios are located about 1.75 miles north of Somerset, Ky., on Kentucky Highway 1247.

Thanks again for the report. I enjoyed the cup of coffee you bought me!

Sincerely,

Robert L. Shoopman, Jr.,
Chief Engineer
