

Dear *Mr. Wisolowski*.

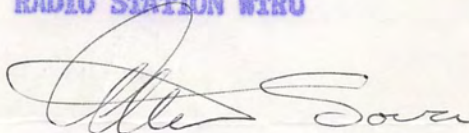

WTRU is pleased to verify your reception report of 5:30 Am - 5:33 Am - EST 2-10-62

Radio Station WTRU operates on a frequency of 1600 K.C. with a power of 5000 watts. Our studios are located one block east of Getty Street on Summit Avenue in Muskegon Hts., Michigan. WTRU operates with a directional antenna at night, full power. Our lobe extends northward and is quite critical. We utilize four (4) towers in our system each 153 feet above ground.

Thank you for your interesting report. It is always welcome news to hear that someone has heard WTRU at some distant location. If we can ever be of assistance to you, please feel free to call on us.

Sincerely,

RADIO STATION WTRU

Allen Sova,
Chief Engineer
