Mr. Ernest J. Wesolowski
1416 Pasadena Ave.
Omaha 7, Neb. 68107

Dear Mr. Wesolowski:

This is in reply to your reception report of Monday, April 5, 1965.

Because we are only required to keep our logs on file for two years, I was not able to look up the transmitter log for that date, and also, the engineer who conducted that test is no longer here.

However, I am quite sure that what you stated on your report is true, as we do conduct our monthly frequency check after midnight of the first Sunday of each month, which your report indicates.

It's hard to say what happened to your first request for confirmation of your report, but I hope this helps you out. If not, we will be conducting our next monthly frequency check this coming Sunday night (Monday morning) at about 12:00 AM, Sept 5. You might want to try pick us up again.

Let me know if I can be of further assistance.

Yours truly,

Dale R. Olmstead
Engineer, KDLM Radio

The Sound Citizen at 1000 Watts
