

AMradio14 / FMstereo102

May 7, 1979

Mr. Ernest J. Wesolowski  
1416 Pasadena Avenue  
Omaha, Nebraska 68107

Dear Ernest,

It is with pleasure that I am able to confirm your reception of our station KEEY-AM on April 14th, 1979.

KEEY-AM operates 24 hours a day with a non-directional pattern with 1000 watts daytime of nighttime power. Our transmitter is made by CCA Electronics, type AM1000D feeding a folded unipole antenna on a grounded tower.

I have enclosed for you, coverage maps of both KEEY AM and KEEY FM. I am sorry that we do not have bumper stickers at this time.

Sincerely,

MALRITE OF MINNESOTA, INC.  
KEEY AM & KEEY FM

Harry Wilkins  
Chief Engineer
