Dear Ernest,

Thank you for taking the time to send us your reception report.

KQAD radio is 6 weeks and 2 days old today; we went on the air March 1, 1971, at 6 AM.

We are running 500 watts directional daytime only, with pattern beamed toward the SouthWest and have pre-sunrise authority for 250 watts when required.

I would include with this letter, a coverage map for our station, if we had some printed up, but at this time, we have not had any printed.

Your reception report is hereby verified.
