Dear Ernest:

My thanks for your report of December 24th, we are happy indeed to hear from you and anyone that is able to hear us no matter where or under what circumstances.

Your log is as we have ours and this is to confirm your receiving us on the date noted. The temperature here at the time of our transmission was 10 degrees below zero, and our radiated power was 1KW. Our transmitter is located on the North outskirts of the city on U.S. highway #53.

Thank you for your report and wishes and may I return same and add continued logging.

Yours very truly,

Joseph J Cerar  
Chief Engineer WEVE
