Dear Mr. Wesolowski,

I am pleased to inform you that your reception report of April 10, 1963 from 5:45AM to 5:47AM is correct and hereby QSL same.

Thank you for the information that "KBLR" was assigned to a Goodland, Kansas station. We signed on here Nov 22, '61.

We do not have a coverage map, as such. We do feel that, owing to a very good ground system containing well over 18,000 feet of #10 soft-drawn copper wire, this station has a better-than-average signal for this part of the country for 250 watts.

Ours is a remoted operation, the transmitter located about 3/4 of a mile down Division street from the studios.

Thank you very much for your reception report.

Yours very truly,

Paul Rheuark
