April 11, 1963.

Mr. Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha 7, Nebraska.

Dear Mr. Wesolowski:

This letter verifies your reception of KFUEO-AM from 7:15 p.m. to 7:30 p.m. Central Standard time, on 850 kc. We greatly appreciated your reception report and interest. Your report is especially interesting because of your proximity to KOA, a 50,000 watt station on 850 kc.

KFUEO-AM is non-directional, having a power of 5000 watts. Our studios and transmitters are located on the grounds of Concordia Seminary, which lies just north of Clayton Road and east of Big Bend Avenue. The station is owned by The Lutheran Church - Missouri Synod and is supported by contributions from interested individuals.

Yes, we do have an FM station located in the same building. It operates on a frequency of 99.1 mc with an effective radiated power of 6700 watts.

Our AM transmitter is now 22 years old and is a Western Electric, 405 B 2. The antenna height is 315 feet. Yes, our AM operating hours are governed by local sunset time in Denver. I'm sorry I don't have a coverage map available, but we can be heard quite well on an average set at a distance of 100 miles.

Thank you again.

Cordially,

John Fischer,
Chief Engineer.
