SPRINGFIELD'S NEW **GOSPEL** RADIO

October 24, 1974

Ernest J. Wesolowski  
IRCA International Radio Club  
1416 Pasadena Avenue  
Omaha, Nebraska 68107

Dear Mr. Wesolowski:

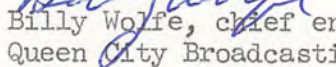

Greetings from Missouri! Received your kind letter of October 21, 1974 stating the fact that you had picked up our little old 500 watt AM station on 1550 khz K L F J Gospel station there in Omaha, Nebraska. Well Glory be, that sure is good.

Yes, you were correct on the time and date and this is to verify that what you heard was K L F J, on 1550 khz, 500 watts of power, Springfield, Missouri. We thank you for your service and taking time out to write us and letting us know this information. Your statement of "strong signal and fairly steady" was a good report.

I will inform you in advance that I will make another equipment test at 3:00 A.M. on December 5, 1974. Inform your radio club buddies and we'll see what comes up this time. OK?

Thanks again for this, and God bless you all up there in Nebraska.

Respectfully,

  
Billy Wolfe, chief engineer and President  
Queen City Broadcasting Co., Inc.
