Omaha, Nebraska 68107

Dear Sir;

It is our pleasure to confirm your reception of station WJLJ. Your logging of WJLJ from 2:15 AM-2:27 AM Central Standard Time on Dec. 21, 1973 is correct as indicated.

WJLJ is 250 watts, two tower directional, and daytime only. I regret that we have not, as yet, had any coverage maps printed.

Incidentally, you are the second DX-er in Nebraska that has requested confirmation of reception.

Respectfully yours,

*B.J. Crabb*
