

YELLOWSTONE BROADCASTING CORPORATION
suite 607 midland bank building
billings, montana

February 13, 1960

Mr. Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha 7, Nebraska

Dear Sir:

We at KURL, "The Mighty 730", are happy to confirm your report
of reception on January 11, 1960 from 12:34 AM to 12:49 AM MST.

KURL operates on a federally assigned frequency of 730 kilocycles
with a carrier power of 500 watts. Our transmitter, a Gates
BC500-T, is located approximately $1\frac{1}{2}$ miles south of the Billings
business district and is remotely controlled from the studios.
The studios are in the Midland Bank Building. The antenna is
a series fed 300' guyed tower of uniform cross-section. We are
a daytime station operating from 6:00 am, MST until local sunset.

Again let us thank you for your excellent report.

Sincerely,

Joseph M. Groves

Joseph M. Groves
Chief Engineer

Good report
