Dear Mr. Wesolowski:

Thank you for your letter of February 22, 1977. It was good to hear from you.

In reference to your request for verification of your reception of WBBO during our test broadcast of February 21, 1977, the voice you heard was mine, and what you heard and what you listed is correct.

I am sorry at this time we do not have a coverage map. Our coverage is approximately a seventy-five to one hundred mile radius.

We received a number of distant reports - Canada, New York, Nebraska, Ohio, and of course, some of the Southern states.

Again, thank you for your interest in our station.

Sincerely,

Bill Prather
