Dear Mr. Wesolowski,

Your reception of WPET on the morning of Monday, January 9, 1967 from 4:11 a.m. until 4:22 a.m. on 950 kcs is true and correct.

We operate non-directional using a 242 foot tower. We have 500 watts. I think Omaha, Nebraska and Houston, Texas are the farthest we have ever gotten out. We are very honored Mr. Wesolowski!

I will look for a coverage map, but I'm not sure I can find one. We also don't print up the Top 30 Survey. In any event I will get one for you. This has been a great help to us. Thank You.
