

The Berry-Iverson Company

P.O. Box 411
Phone (701) 742-2187
Oakes, North Dakota 58474

November 23, 1974

Mr. Wesolowski:

Sorry I'm slow in getting back to you. I'd invent some excuse, but nothing I can think of is simultaneously truthful and adequate.

Your text of our sign-off is essentially accurate as is the time for November 5, 1974. In fact your quote of our sign-off is embarrassingly accurate in some respects. While we stated our PSA as 500 watts, it is actually 250 watts. That error in our sign-off has been rectified. You are also accurate in stating that our carrier was off at 5:00:15.

Corrections: Berry-Iverson Company and Steve Michaels did the sign-off.

I'm trying to figure out why the hell WAVN, Stillwater, Mn signed off at 4:45, since they are farther south than we are, and should have either the same or a later sign-off than we do.

You might be interested to note that most of our other long distance reception has been from Missouri for some reason.

Enclosed is the nearest thing we have to a coverage map. I hope it is adequate.

Sincerely,

A handwritten signature in cursive script that reads 'Bill'.
