The McCOOK BROADCASTING CO. Inc.

February 14, 1963

Ernest Wesolowski
1416 Pasadena Avenue
Omaha 7, Nebraska

Dear Mr. Wesolowski:

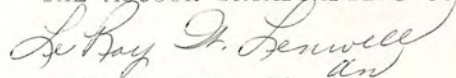

Please consider this a verification of your reception of our station on January 19, 1963, as reported to us.

We are now on the air with 5000 Watts, directional. We have two towers. They and the transmitter are located about 1½ miles southwest of McCook.

At the present time we do not have any coverage maps available. They are at the printers and should be getting to us in the near future.

We hope that you will stop and visit with us again when you have the opportunity.

Very truly yours,
THE MCCOOK BROADCASTING CO.

LeRoy W. Lenwell
